The Facts of Lice

- Lice eggs (nits) can't hatch off of your head.
- Lice bugs can't survive off of your head for more than 24 hours.
- Lice isn't hygiene related- it can happen to anyone.
- Head lice usually transfers from direct head to head contact.
- Head lice can't jump or fly, they only crawl.
- Lice can't live in your home.
- Over the counter treatments don't work! Super lice have mutated to resist them.
- Lice can't live on pets.

Bugalooz Reviews

♥ Hilary the owner is so compassionate! I found out my girls had lice & I panicked. I called Bugalooz & Hilary immediately put me at ease. She was so calm & scheduled us an appointment to be treated the same day. Our lice was removed in no time flat and my girls were able to return to school immediately! Thank you Hilary & Bugalooz.
- Maria, Covina, Ca.

♥ Our school called & said I had to pick up my son because he had lice. He was so upset, he couldn't stop crying. The school recommended we call Bugalooz, because their treatment is non-toxic & completely guaranteed. We'd heard about other companies, but we'd also heard Bugalooz was less expensive & they are! I would highly recommend this company & their wonderful team. They're honest & they're the best!
- Andrea, Pasadena, Ca.

♥ My kids & I were all infected with lice & we tried everything to get rid of it. We bought box after box of chemicals, but it just wouldn't go away! That's when I called Bugalooz. We scheduled an appointment & everyone was treated. The technician was amazing, patient & kind. She made the kids feel extra special, with no judgement whatsoever. Don't bother with chemicals- they don't work. Call Bugalooz, you won't be sorry!
- Stephanie, Glendora, Ca.
